

Sip n' Cycle Coffee Tour “Azotea”

Trip Description

This is a beginner to intermediate mountain bike ride with a tour of a local coffee plantation.

The Ride:

Our ride to Finca Azotea focuses more on big scale coffee processing. Although they are a small growing farm they have a large processing capacity which means they not only process and package their own coffee, but other smaller growers can pay to have their coffee processed there as well. The farm has a maze of great trails weaving their way through the plantation between the coffee plants and shade trees. The plantation's practice of shade grown coffee means the farm will be alive with native bird species as well. After biking amongst the plants we'll head inside to sample the different varieties & blends of coffee and see the whole coffee “deal” from start to finish, picking to packaging.

Highlights:

- Explore the Antigua valley
- Ride through the mazes of a coffee plantation
- Sample various blends of some of the best coffee Guatemala has to offer
- Learn about how coffee is planted, harvested, and produced, from picking to packaging
